Overall Commitment	FP2020 Commitments	Commitment Statement	Classification	Deconstruction	Categorization	Process Indicators	Source (for internal)	
With less than four years to 2020, the Government of Indonesia (GoI) remains committed to the goal of With less than four years to 2020, the Government of Indonesia (GoI) remains committed to the goal of enabling 120 million more women to use contraceptives. Between 2015 and 2019, GoI will maintain quality family planning (FP) services to more than 30 million current users and ensure accessibility to at least 2.8 million additional users. In order to do so, GoI will allocate USD 1.6 billion for FP programs between 2015 and 2019; this includes an almost two-fold increase in budget allocation from 255 million in 2015 to 458 million in 2019. Additional funding assistance for health programs including family planning will also be provided to local governments in the amount of USD 1.7 billion per year. Indonesia plans to fulfill its commitment to the FP2020 goal by ensuring the: (1) Provision of family planning services and contraceptives through the National Health Insurance scheme towards Universal Health Coverage by 2019; (2) Improvement of Contraceptive Method Mix; (3) Availability, quality, and supply chain management of contraceptive commodities; (4) Empowerment of young people; and (5) Implementation of the integrated approach to rights-based family planning programming at the sub-national level.	#1 The Government of Indonesia will allocate USD 1.6 billion for family planning programs between 2015 and 2019; this includes an almost two-fold increase in budget allocation from 255 million in 2015 to 458 million in 2019. Additional funding assistance for health programs including family planning will also be provided to local governments in the amount of USD 1.7 billion per year.	The Government of Indonesia will allocate USD 1.6 billion for family planning programs between 2015 and 2019; this includes an almost two-fold increase in budget allocation from 255 million in 2015 to 458 million in 2019	Implicit	The annual budget allocation for family planning programs will increase from USD 255 million in 2015 to around USD 458 million in 2019, an almost two-fold increase in the proposed budget allocation for FP programs.	Health financing	GoI allocation for FP programs annually	-	Target: USD 458 million
				USD 255 million allocated for FP programs in 2015 Annual budget increase for FP programs in 2016, 2017, 2018)		GoI allocation for FP programs between 2016-2019		Target: USD 1.6 billion
		Additional funding assistance for health programs including family planning will also be provided to local governments in the amount of USD 1.7 billion per year.	Implicit	Special Allocation Funds (DAK) & Operational Allocation Funds of Family Planning to support better access to family planning services at district level (The national government has made available Special Allocation Fund, transferred to the sub-national governments to cover both the operational cost for contraceptive distribution as well as the counseling centers and for physical infrastructure to better equip service delivery points.) (Starting in 2014, National Working Meeting (RAKERNAS) is replaced with National Coordination Meeting (RAKORNAS) inviting Governors, Regents/Mayors as participants. The Coordinating Minister of PMK, Home Affairs, Bappenas, MOF, MOH and BKKBN are invited as resource persons to reinforce local government support in providing adequate allocation funds for ensuring access to FP services and other FP-related priority activities for communities at a grassroots level.) The increase in funding assistance from the central government to local governments through the Specific Allocation Fund (Dana Alokasi Khusus), including USD 29.5 million annually for 437 districts/municipalities to around USD 60 million for 492 districts/municipalities, with the total amount of USD 1.7 billion per year from BKKBN and Ministry of Health	Health financing	Yearly allocations for health programs including FP/MCH to LGs through DAK via MoH	Dicek ke Kemenkes dan BKKBN Petugas : jaknis BOKB APBN turun dengan harapan digantikan oleh APBD dan persen swasta + dana desa No 1 dan 2 adalah bagian dari no 3 (USD 1.7 billion) Bersumber dari DAK Health (CP: Bu Mayang/Ibnu Kosmas) dan BOKB : Permendagri no 13 tahun 2006 tentang KB/KS-untuk track Provinsi dan Kab/Kota – tracking untuk internal kontraceptive untuk KB dan kesehatan (CP: Bp Arifin – Kemendagri) Anggaran USD 1.7 Billion per tahun ini adalah gabungan dari DAK yang ada di Kemenkes dan BKKBN. Dapat dilihat dari: - DAK Kemenkes : bagian Bizen - DAK BKKBN : Bu Mayang	a. USD 29.5 million for 437 districts allocated through Special Allocation Fund in 2016; Target: USD 1.7 billion
						Yearly allocations to LGs through DAK via BKKBN		b. USD 60 million for 492 districts allocated through Special Allocation Fund in 2017, 2018, 2019, 2020
