THE MOTION TRACKER

RH/FP Commitments Landscape

What Is a Commitment?

Commitment [kuh-mit-muh nt]

noun

1. A specific statement of intent outlining actions the commitment maker will undertake and objective to be pursued.
2. An opportunity to catalyse collective action on a specific agenda or issue.

For FP2020, commitments function as a blueprint for collaboration, providing partners with a shared agenda and measurable goals.

Why Monitor Commitments?

Record progress and address barriers

Existing Issues

No structures for follow-up

Disjointed understanding of commitments and responsibilities

Less engagement and participation of civil society

Bias toward tracking measurable indicators (e.g. mCPR, unmet need)

Less emphasis on processes

'Blame and shame' between civil society, development partners and government

The Motion Tracker

Platform to engage using partnership model

Mechanism to coordinate commitments made by each country

Opportunity to publicize all commitments and outcomes

Transparency among partners

Progress measured

Barriers identified and addressed

How does the Motion Tracker work?

The Motion Tracker is a customized, dynamic framework for strengthening accountability and drive action by keeping commitments visible and highlighting progress while fostering partner participation, engagement and ownership to address bottlenecks to achieving commitments.

01

IDENTIFICATION OF THE COMMITMENTS

work with government and local partners to identify FP2020 commitments

02

CLASSIFICATION OF COMMITMENTS

collaborate with government and civil society to classify commitments as either implicit or explicit statements

03

DECONSTRUCTION OF COMMITMENTS

deconstruct the commitments by analyzing background documents

04

CATEGORIZATION OF COMMITMENTS

categorize the commitments according to the World Health Organization (WHO) health system building blocks

05

DEVELOPMENT OF COMMITMENT PERFORMANCE INDICATORS

work with a network of family planning practitioners and policymakers to develop performance indicators for tracking progress against each commitment statement

06

IMPLEMENTATION WITH TARGETED PARTNER ENGAGEMENT

engage stakeholders to identify and acknowledge partner action, showcase progress and celebrate success as well as identify barriers and actions to accelerate progress

Complementarity of the Motion Tracker

Motion Tracker

Quarterly data:

Uganda, Zambia and Tanzania

PMA 2020

Annual data:

10 FP2020 priority countries
in Africa and Asia

FP2020 Commitments

DHS

Data every 5 years:

Over 90 countries

Track20

Annual data:

69 focus countries

Benefits of the Motion Tracker

Adaptable, dynamic system applicable at global, regional, national and sub-national levels

Tracks both financial and non-financial commitments

Tracks actions of commitment makers and other actors toward achievement of commitments

Recognizes the voices of champions and stakeholders, ensures continuous engagement

Advocacy tool for improving transparency

**RESULTS FY2018/19
(JULY-DECEMBER 2018)**

THE MOTION TRACKER

Objectives

Goal→ Accelerate the fulfillment of the targeted number of fundamental commitments to the updated EWECC Global Strategy and Family Planning 2020.

The aim is to support countries meet their country-specific commitments using the Motion Tracker[©] which leverages both the expertise and resources of national partners as well as those of the International community.

Methodology

Sampling technique:

- Purposive (partner matrix)
- Snow-balling

Data collection techniques:

- Key Informant Interviews
- Desk reviews

Response rate: 76% (n=108 organisations)

Limitations:

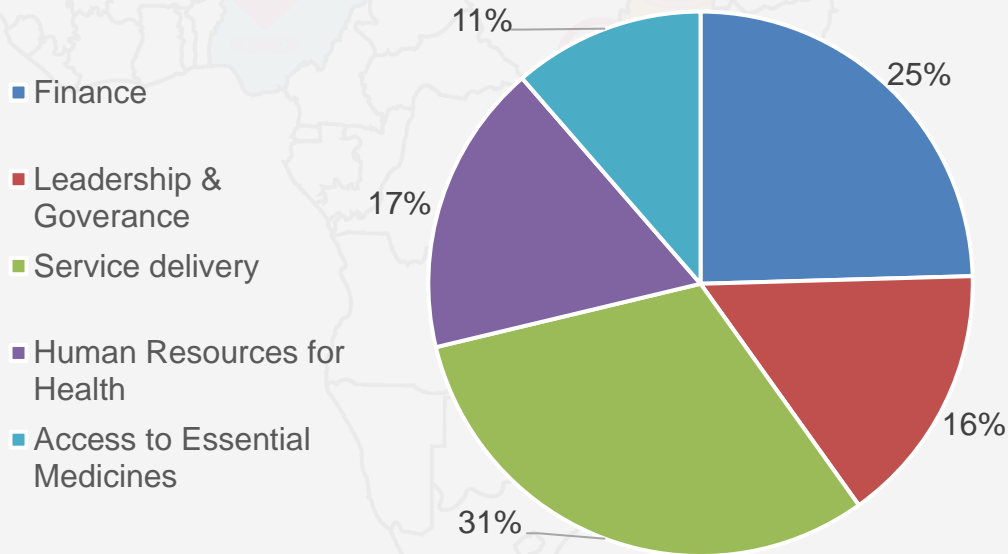

- Low knowledge of commitments
- Low reporting rates
- Extensive time taken amidst conflicting priorities
- Reporting officers changing organisations

Accountability by results: Partner Engagement and Participation

Accountability by results: Participation by HSS blocks

FP2020

EWEC Global Strategy

Review of Progress

Kindly refer to the
handouts in your folders

- a) FP2020
- b) EWEK Global Strategy

Finance –related Barriers

- Advocate for increased domestic financing including handling fees for ADS
- Resource mapping for RMNCH
- Undertake budget tracking of resources for adolescent FP under GFF
- Fast track the ongoing process for establishment of a NHIS bill
 - Incorporating all stakeholder inputs

Leadership and governance–related Barriers

- Key policies and strategies pending approval
 - Emergency Medical Services policy
 - National Adolescent Health policy
 - Pharmacy Bill
 - Communication Strategy for behaviour change

Service delivery –related Barriers

- Low data use at all levels
- Low financing of the Refugee Health and Nutrition Plan
- Weak multi-sectoral partnerships
- Inadequate transport and funding for district level coordination and support supervision
- Knowledge gap among practicing providers

Human Resources for Health –related Barriers

- Poor / inadequate infrastructure (including staff accommodation).
- Inadequate staffing at all levels
 - a significant number of posts are not filled
 - current staffing norms not commensurate with the services provided and workload.
- Inadequate staff supervision at all levels

Access to Essential medicines–related Barriers

- Stocks outs of key commodities at facility level owing to inadequate budget allocation for EMHS.
- Handling fees for the Alternative Distribution Mechanism
- Mobilize resources dedicated to disposal of expired medicines

Lessons learned

- Less Visibility for EWEK Global Strategy commitments
- Partnerships are essential for achievement of Commitments
- Provided a platform for sharing and learning around family planning, challenges and opportunities among stakeholders

Acknowledgements

- PMNCH
- Ministry of Health
- All partners

THANK YOU
